Dominion Day At Stoney Plain

A Grand Celebration

"Fete Day" in Stoney Plain as the city may be asked to participate. Little town northwest of us is, holding what it terms a joint celebration at the 1st and 4th July. That is, the Canadian and American residents in the district have joined hands for a monster celebration. Horse races, Indian sports, basketball, Ross vs. Stoney Plain, children's races and games, football, Indians vs. Whites; foot races, football, Spruce Grove vs. Stoney Plain and other sports now being arranged by the committee will be the programme offered. It is very probable the second baseball team of our

B.C. Government Will Help Railroad

Revelstoke, June 21.—The British Columbia government has promised substantial assistance towards opening up the Revelstoke route for both winter and summer, for taking in supplies and men for the Grand Trunk Pacific construction of 75 miles of the section through Yellowhead pass to the Tete Jaune Cache, and 150 miles west of the cache, provided contractors adopt the Revelstoke route and undertake to purchase such supplies in this province as can be procured here on fair terms. Local people have also subscribed \$50,000 towards the construction of the route, and the city council will submit a by-law to raise \$10,000 for the same purpose. It is expected that the government aid will amount to at least half the total cost, and this, with the aid promised by citizens and the city council, will provide almost the total cost of all facilities necessary for getting in supplies and men at nominal cost. It is admitted by all unprejudiced people that this route is shorter and easier of opening up than any other route.

Germany's New War Naval Commander Dismissed

Berlin, June 21.—The German government has decided to establish a new war port and naval station in the Baltic, at Agard, a small town of 600 inhabitants at the mouth of the Aparader Firth, in Schleswig-Holstein. The first upon which the town stands is a large site, and the decision of the government is based on the lessons of the cothman naval and military manoeuvres of last year, coupled with the appeal of the municipal authorities, who have offered to defray part of the cost of the necessary works. The new naval station will be known as Prinz Heinrich Haven. This is only one instance of the extraordinary activity which is prevailing in all the preparation for war departments of Germany.

Prinz Heinrich Haven is on the Baltic Sea, at Brunnstede, on the North Sea coast from the Kaiser Wilhelm Canal, capable of taking the largest warships, and a new and extensive dockyard is being constructed with two docks, each designed and the work being pushed forward with such rapidity as to insure the completion of the station long before 1918—the date fixed by the admiralty for the completion of the preliminary works at Rosyth.

Further, the canal itself is being widened at a cost of ten million sterling. At other parts large extensions are being made, notably at Wilhelmshaven where two Draughted docks will be completed this year, and at Emden, where a first class torpedo base is being prepared. Additional fortifications are being erected on the islands, round the mouth of the Ems, and at Emden. Small barracks for the accommodation of troops and quays for the quick embarkation of soldiers are being rapidly pushed forward.

In addition to this small canal between Emden and Wilhelmshaven and known as the Ringe canal, is being widened so as to allow the largest ships to be used with the construction of two ports, by the town of Aurich.

Too Hot In Chicago

Chicago, June 22.—Ten prostrations and several deaths in part by heat is the result of yesterday's heat wave in Chicago. On account of the high winds from the west which reached a velocity of 42 miles an hour at noon the streets were filled with clouds of dust. The maximum temperature was 88 degrees.

Three Rivers Wiped Out

Three Rivers, Que., June 22.—The fire which broke out at noon here today destroyed about one hundred buildings, the post office, the telegraph office, the Bell Telephone office and all the banks; all the drug stores, all the principal grocery stores, all the dry goods stores, the old parish church and several private residences. All the principal hotels were burned. The loss will probably be about one and a half millions of dollars.

House May Sit All Summer

Ottawa, June 22.—The inauguration of what may prove to be a fairly long discussion on the matter of departmental administration is taken as an indication that the acute state of the parliamentary deadlock is likely to be once more reached within the next day or two. J. E. Armstrong, in the course of his speech this morning on general affairs, expressed the conviction that the house will sit all summer. A conference is expected to take place between the two leaders to day, and unless they arrive at a basis of agreement the deadlock on supply will be renewed. There will be an adjournment for the Quebec celebrations about the middle of July.

Murder and Incontinence

Bethlehem, N.D., June 22.—After robbing the post office twice three years ago on Sunday morning set fire to the store of H. M. Somer located in the north-east corner part of this country and killed a lady and that of an unknown person were found in the ruins after the fire was extinguished. Robbers are believed to have murdered Somer while he slept and then to have hoisted the safe and then, in order to cover the crime, set fire to the frame building. Both bodies were badly burned and one has not been completely identified but it is believed to be that of Somer's wife who was making her home at Somer. The building was totally destroyed and there was little or no trace of the murderers. A posse has been sent out but has found no clue. The exact amount of plunder secured by the robbers is not known, but it is believed that five hundred dollars in cash and stamps was taken from the post office.

Crushed To Death

Calgary, June 22.—A terrible accident occurred at the Alberta Portland Cement plant yesterday about noon, when Wm. Lawther lost his life while working about the machinery. Just how the tragedy occurred is not known. Lawther was seen on the separator about 11.30 and was seen again a short time later when the mill was started. About 12 o'clock his dead and mangled body was found lying beside the machinery, the life having been thrust out of him, every bone in his body broken, the only parts unscathed being the head and feet.

Just how the accident occurred no one knows. It is thought that when the mill was started some portion of his clothing caught in one of the pulleys and belts and he was whirled to death. The police were at once notified and they in turn notified one medical man. The cement people in the meantime notified another. Both medical men arrived at the same time but could give no assistance as the man was dead when found. The body was removed to the morgue at Graham and Buscombe's establishment and now lies there awaiting the inquest which has been called by the coroner. Lawther was a single man, about 32 or 33 years of age. He has no relatives in Canada, that is known, but he leaves a sister, Jennie, in Belfast. This is the second fatality to occur at the plant. Last fall Wm. Rider was electrocuted. Lawther had just purchased a money order for his sister. The coroner's jury meets this afternoon at Graham and Buscombe's at 3 o'clock to be sworn in and to view the remains and will then meet again at 8 o'clock to take evidence.

How Nice!

New York, June 22.—From now until June 30, 1908, no less than 100,000,000 cigarettes will be consumed in Canada during the past ten years has increased from \$9,582,817 to \$84,809,344. The enormous growth of the habit is shown by the consumption returns for the past five years as follows: 1904—211,302; 1905—250,860; 1906—260,382; 1907—350,170; 1908—384,809,344.

Canada's consumption of hard liquor and tobacco declined during the past year, while the consumption of beer and wines showed a slight increase. The consumption of spirits during the year was 889 of a gallon per head of population, against 947 the previous year. Beer was consumed to the amount of 5,812 gallons per head while the year previous the amount was 5,995 gallons. The consumption of wine was .096 of a gallon per head against .092 the year before.

The average amount of tobacco consumed was 2,988 pounds per head while the previous it was 2,933 pounds.

Militant Mrs. Pankhurst Talks

London, June 22.—"We intend to go from great to greater," declared Mrs. Pankhurst, noted militant suffragette when asked what steps were likely to follow yesterday's unexampled suffragette demonstration in Hyde Park. "The small body of men who made trouble about my platform in the park could not have been a source of pride to their fellow males," she said. "Rougher beings than modern society could produce. They trampled fair play in the dirt and innocent women fought with them for their lives. I shall never forget that mob rushing on us like wild beasts." But this brutality, no less than general silence and respect will help our cause. Responsible men must see social tranquility is possible only with justice to women. Our future plans depend upon the attitude of those in power."

Japanese Problem Grows Graver

Vancouver, B.C., June 22.—Did the count of Japanese entering Canada start when the agreement between the government of Japan and Commissioner Lemieux was ratified or does it not commence until tomorrow? This is a matter of much conjecture because of the point now raised that at the time of the ratification of the understanding, Sir Claude MacDonald, British ambassador to Japan, recommended that six months should be allowed before the count was started. Tomorrow six months will have expired. If tallying of Japanese entering Canada started from time understanding was reached in December 23, 1907, the limit on Japanese immigration has been reached and exceeded and Japanese continue coming.

Seattle, Wash., June 22.—If not given a knock-out blow, by Japanese statecraft. Through the ports of Tacoma and Seattle subjects of His Imperial Majesty the Mikado are pouring into the country at an average exceeding five hundred per month. And add to the Oriental influx hundreds of others, who unprovided with the necessary passports find it more convenient to take the "unofficial route" via the unprotected Canadian border or reach their haven in alcove at 30-40 at any one of a score of little mooks and boys fringing the coast line of Puget Sound.

Tobacco and Liquor Statistic Dynamite Explosion

Ottawa, June 23.—The consumption of cigarettes in Canada during the past ten years has increased from \$9,582,817 to \$84,809,344. The enormous growth of the habit is shown by the consumption returns for the past five years as follows: 1904—211,302; 1905—250,860; 1906—260,382; 1907—350,170; 1908—384,809,344.

Canada's consumption of hard liquor and tobacco declined during the past year, while the consumption of beer and wines showed a slight increase. The consumption of spirits during the year was 889 of a gallon per head of population, against 947 the previous year. Beer was consumed to the amount of 5,812 gallons per head while the year previous the amount was 5,995 gallons. The consumption of wine was .096 of a gallon per head against .092 the year before.

The average amount of tobacco consumed was 2,988 pounds per head while the previous it was 2,933 pounds.

Canadian Crimean Veteran's Pensions

Ottawa, June 22.—Militia orders issued on Saturday contain a notice that the authorities are giving special compassionate consideration, ranging from \$6 to \$12 a day to Crimean veterans of 65 years of age, who are in exceptional circumstances. The pensions must have received a medical. Applications should be made for their pension to the secretary of Post Hospital, Chelsea, N.W., England.

CURRENT COMMENT

We understand that petitions are in circulation in favor of the reappointment of Ex-Chief Patterson to the police force and against his appointment. We have not seen the petition in Patterson's favor but the petition against was presented at this office. We declined to sign the petition in Patterson's favor as we do not think that it is at all a fair deal. Patterson has stood his trial on three separate occasions and ample opportunity has been given to prove any of the charges against him. We think a little reflection on the part of those who are continuing this Patterson persecution (for it has ceased to be prosecution) will lead them to the conclusion that their action is cowardly and contrary to all ideas of British fair play. In our view Ex-Chief Patterson is the only one of the anti-Patterson crusaders who is entitled to say that he is playing the game fairly. Harris came out, not perhaps in the way we think he should have come out, but he came out, and made his charges openly. He faced the music and if the time played was not the one he expected he is taking his medicine like a man. It is different with the others. Mr. Justice Scott had an open outcry and offered the public an opportunity of giving evidence against Patterson. No one volunteered. In our view that should have ended the matter to fair minded men. We do not think that it is necessary for us to weigh in the evidence for and against every man of the most sacred possessions of every man in Canada is his constitutional right to be assumed innocent until he is proven guilty. The Patterson accusers had their opportunity. The honest way, the manly way, if they had any charges to make was to have come out in the open and offered their testimony before Justice Scott. But where were all those who leveled charges at Patterson's head. Where was Mr. N. D. Mills? Where was the Rev. Mr. Brown? Where was the Plaindealer? Justice Scott gave the victims the opportunity of laying their complaints. There was no response. By all the most primitive rules of Justice, Patterson must be assumed to be innocent. It is not necessary to take any side in the controversy. This question has ceased to be one in which fairminded men can have two opinions. The whole matter was laid before a Supreme Court Judge. His finding is public property. It is intolerable to reflect that a man may in this city stand his trial, be acquitted and then be subjected to the machinations of those who do not like him. We had hoped that this wretched question had been consigned to that oblivion which its merits demanded and public decency would suggest. We were always led to believe that the proper attitude to take up was that if you could not do a man a good turn at all events not to do him injury. Apparently a minority in this city, and we believe a small minority, consider that in a campaign of this description anything is fair. It is not even the doctrine of hanging a man first and trying him afterwards it is the doctrine of trying him, getting a verdict in his favor and hanging him in spite of it.

WASTING AND IMPOVERISHING (Trilone)

The report of the Civil Service Commission of Canada should be read by every Canadian. It throws a cloud of light on the inefficiency of the present management of the people's affairs. It is the greatest non-partisan eye-opener that has ever been presented to the

the Canadian people. Here is a paragraph from a section of the report, written, it is fairly presumed, by Mr. Pydie, the noted barrister, who was one of the commission:

"The question of salaries is of course the main one with the employees, but the question of quality and value of service requires just as much consideration from the other side. It is true that the salaries of most of the civil servants are not equal to what they were thirty or forty years ago, in consequence of the greatly increased cost of living, the obvious and logical result of our WASTING AND IMPOVERISHING SYSTEM OF PROTECTION. As there is no reason, however, of much relief from our self-imposed burdens in our endeavors to improve in nature, the least we can do is to try and redress the injury which has been wrought to the fixed salary class, prominent among whom are the civil service employees. That it is our clear duty to do. The chief suffers have been the lowest paid officers, and they should have the largest proportionate increase."

"N.B.—Messrs. Courtney and Bayly, in while of opinion that the increase cost of living is largely due to THIR FISCAL POLICY in force in the Dominion, consider that the restrictive remarks respecting protection are unnecessary for the purposes of this report."

If the salary-earning class and the farmers of Canada, were to stop and think of the tariff barriers for a single week, they would not tolerate for a moment the present protection policy of either the "Liberal" or the Conservative party. Just think of what it would mean to Canada if the working, the farming classes could purchase much of what they eat and wear at the prices that prevail in, say, Great Britain, plus the freight and fair extra charges, without the imposition of an enormous duty. Instead of the vast majority of people having to scrape along with barely enough to live on, there would be an abundance of prosperity.

"What do the tariff reformers want is a question frequently asked. Primarily they ask what work men and women and children (classed in the widest sense) need and want should be bought in the cheapest markets of the world, without restriction whatever. Failing to give them access to the world's markets, let the Government give them free access to the markets of the parent form of the British federation—Great Britain.

The most, the hardships wrought to alleged fixed conditions would be trifling in comparison to the blessings that would follow to the masses. Food and clothing a people economically well, and a great step in the onward march has been taken. Planch then, tax them too heavily, and depression would ensue and discontent follow. The present Government has enormously increased the tax burdens of the people; the taxes collected are almost double what they were in 1896, without anything like a relative increase in population.

This is a great subject, one that should deeply interest every Canadian. The proposal to at least give the people the privilege to buy what they eat and wear at the minimum cost would not affect the great bulk of the protected industries.

It is undeniable, as the Civil Service Commission unanimously finds that "INCREASED COST OF LIVING IS LARGELY DUE TO THE FISCAL POLICY IN FORCE IN THIS DOMINION."

AUSTIN & PALMER

Phone 90 P O Box 343
Office 13 Doors West of
Dominion Bank

Within 1/2 of a mile from the centre of Edmonton and Strathcona.
Lots at \$135 each
Lot at \$150
1 acre at \$120
2 lots at \$180 each.

Terms 1-3, 6, 12, or on monthly payments.
Workingmen this is your chance to secure a site to make a home within easy distance of the Twin Cities.

NO. 1.—
TO RENT A FARM of 560 acres
11 fenced 75 acres under cultivation
20 House 24 x 24; Stables, etc.,
Rent \$500 per annum.

151
1/2 Acre lots \$150 each, on a good road half a mile from the City limits.

A STRANGE STORY.

Stockton, Cal., June 22.—Scores of people watched an effort to recover the body of Warren Cole from the Stanislaus river near Ripon, by peculiar method. Some of the clothes worn by the boy before he was drowned have been tied to a little float made of straw and this has been cast into the stream, in the belief that it will follow the course taken by the boy's body. The body of Clarence Cole, who was drowned at the same time has been recovered in this strange way. A pair of the boy's shoes were sent floating down the river and after they sank, grappling from lowered at that spot soon brought the body of Clarence to the surface. This seemingly incredible incident was witnessed by scores of people who vouch for its truth.

BIG THEFT OF DIAMONDS.

Nelson, B.C., June 22.—Word was received from Roseland to-night that the firm of Stone and Knight, diamond drill importers, have had \$12,000 worth of diamonds stolen from their office under the Centre Star office in Red mountain. The firm have a contract for drilling with the Centre Star Mining Co. and on Saturday night at 11.30 the men went to shift and lost \$12,000 worth of black carbon diamonds in a hole in the wall in the office. To-day at ten o'clock the diamonds were found to be missing and the matter was reported to the police. No arrests so far.

NOTICE

CITY OF STRATHCONA

To whom it may concern notice is hereby given that it is the intention of the Council of the City of Strathcona to undertake the construction of the following 4 foot plank sidewalks, and improvements under the provision of the Strathcona Charter.

South side of, and Avenue South, from North East corner to North-West corner. Block 41.

PILES Get immediate relief from Dr. Shoop's Magic Ointment.

The Big Law-suit

The big Law-suit that has involved hundreds in costly litigation might have been avoided. We have just received a copy of Long's Legal Compendium and it is evident therefrom that every man can become his own lawyer on every day questions.

This volume, though small, covers, in addition to scores of points on general and commercial laws, some sixty subjects that are of vital concern to farmers, merchants and citizens generally.

It deals with land laws, homestead laws, game laws, prescription rights, farmers' laws, etc., and is a valuable book in anybody's hands. Price is only one dollar. The publisher is J. Robert Long, J.P., Caron, Sask.

Changed Station Names

Ottawa, June 22.—The following changes are made in the names of western post offices: Eyletown station, Sask. to Eyletown; Stepan, Sask. to Wynyard; Edger-ton, Alta., to Edgerton station; Dowood, Alta. to Wainwright.

Dependable Drugs

Did it ever strike you how important it is to that you should bring your prescription to a dependable drug store after you have consulted the best doctor you know? At a dependable drug store the best goods can be had without demanding them and you can depend that the goods are rightly kept, handled and dispensed. The interests of the customers must be guarded at every point even to the prices at which the goods are sold. We can justify claim that our store is dependable and will stand the closest scrutiny in every detail.

Duncan's Condition Powders

FOR HORSES, CATTLE, SHEEP, HOGS.

On horses it acts marvelously; it gives a good appetite, a glossy coat, a loose skin, a healthy appearance and purifies the blood; even during hard work they gain flesh and spirit. It cannot be equalled for building up broken down horses that are out of sorts and making them sleek, fat and high spirited.

Take None Other--There is None Just as Good.

Ask your druggist for Duncan's Condition Powder, for Horses, etc.

PHONE 97 GAINER BLOCK

The Conservative Platform

As Enunciated at Halifax and Other Places by
Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

1. Honest appropriation and expenditure of public moneys in the public interest.

2. Appointment of public officials upon consideration of capacity and personal character and not of party service alone.

3. More effective provisions to punish bribery and fraud at elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so amended.

4. A thorough and complete reformation of the laws relating to the Civil Service so that future appointments will be made by an independent commission acting upon the report of examiners after competitive examination.

5. Such reform in the selecting of members of the Senate as will make that chamber a more useful and representative body.

6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.

7. The management and development of the public domain (in which are so included great national fur chases) for the public benefit and under such conditions that a respectable proportion of the increased value arising therefrom shall inure to the people.

8. The operation and management of our government railways by an independent commission free from partisan control or interference.

9. Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates between the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.

10. The re-organization of the present railway commission as a public utilities commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.

11. The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.

12. The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration, after proper inquiry as to cost, of a system of free rural mail delivery.

13. A fiscal policy which will promote the production within Canada of all useful articles that can be advantageously manufactured from or by means of natural resources, having due regard to the interests of the consumer as well as to the just claims of our wage-earning population.

14. The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire.

15. The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.

16. The unimpaired maintenance of all powers of self-government which have been conferred upon the Provinces of Canada under the constitution.
